## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment filed 12/30/2008 is noted with appreciation.

### ***Response to Arguments***

2. Applicant's arguments filed 12/30/2008 have been fully considered but they are not persuasive. While the catalyst materials have been identified, it remains unclear whether an interaction is actually required by the claim and under what circumstances said materials experience such an interaction. As such, the claims remain indefinite.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-4, 12, 19, 25-29, 55, and 57-62, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims remain rejected as set forth in the prior Office action as it is still unclear whether or not interaction is actually required and what the nature and extent of the interaction is.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
